Assembly Instructions

Getting Started - Assembling the Base and Charging Stand

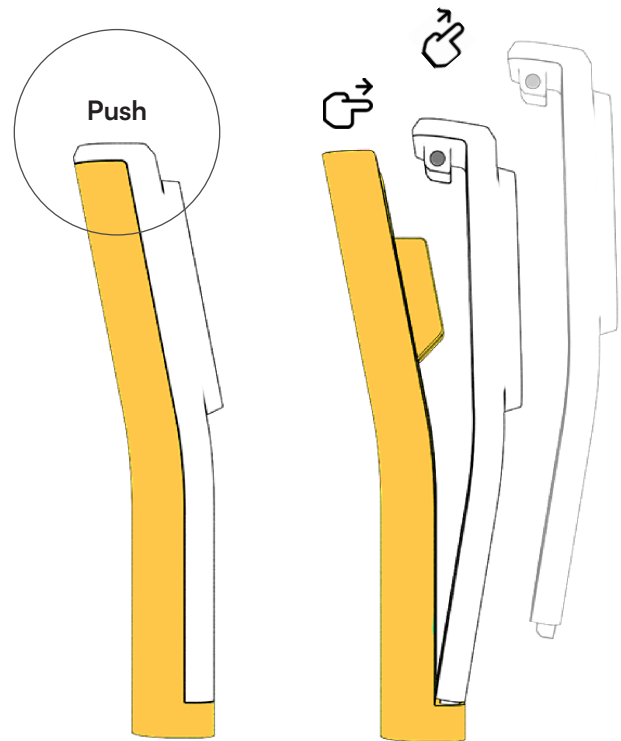

Note: The modular insert and charging stand may arrive pre-assembled for your convenience

Preassembled: Complete Step 1, skip step 2 then continue to the next page.

Disassembled - Follow all instructions, then continue to the next page. Once the stand panel is clipped into the modular base, it is permanently secured. DO NOT pry the parts apart, as this may cause injury or damage to the product.

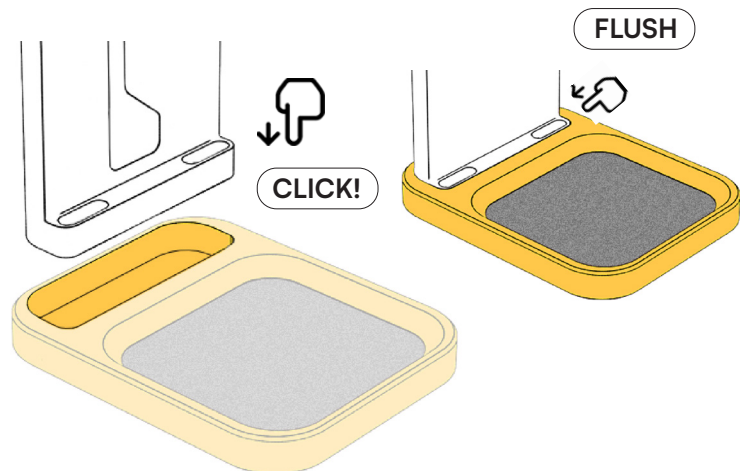

1. Remove the front panel from your MagSafe charging stand by slowly pushing the top of the panel forward to disengage the locking pins. Set the front panel aside.

Tip: Use your thumb inside the MagSafe socket for extra leverage if needed

2. Align the locking clips at the base of the stand panel with the slot in the modular insert. Press down firmly until the panel sits flush.

(Warning: Do not attempt to pry the parts apart after assembly. Doing so may cause injury or damage to the product.)

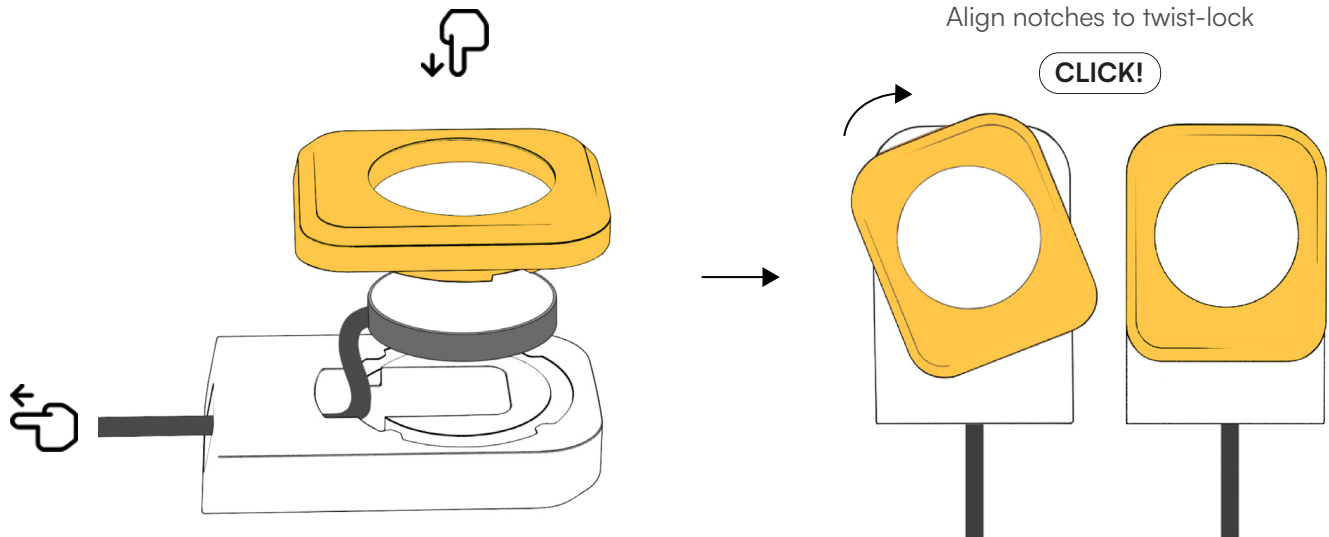

Installing Charger Cables

Follow these steps to install the charging cables

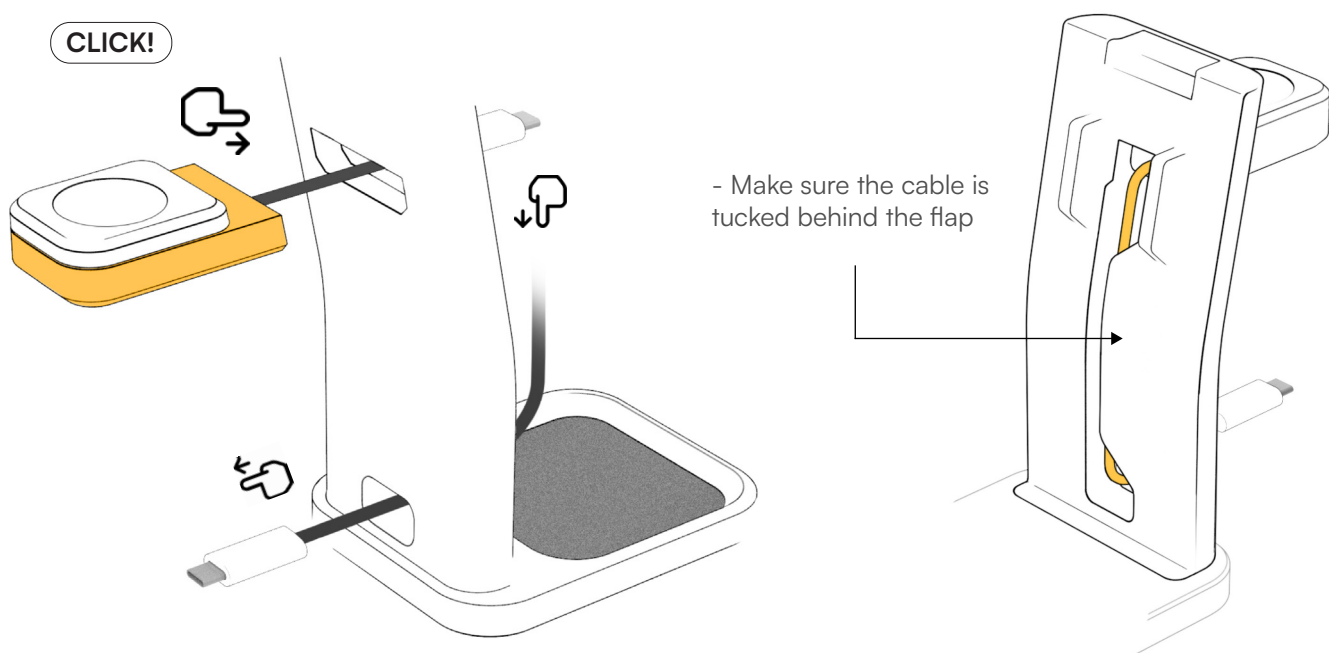

Step 1: Install Apple Watch Dock:

- Insert the charging puck into the top shell. Push it all the way through.
- Feed wire through the bottom half.
- Align the top half with the bottom half, then twist-lock it into place.

Step 2: Install and Feed Cable

- Feed the cable through the back panel and dedicated channels. Skip this step if you are not using an Apple Watch charger. Instead, snap in the provided universal hook attachment.

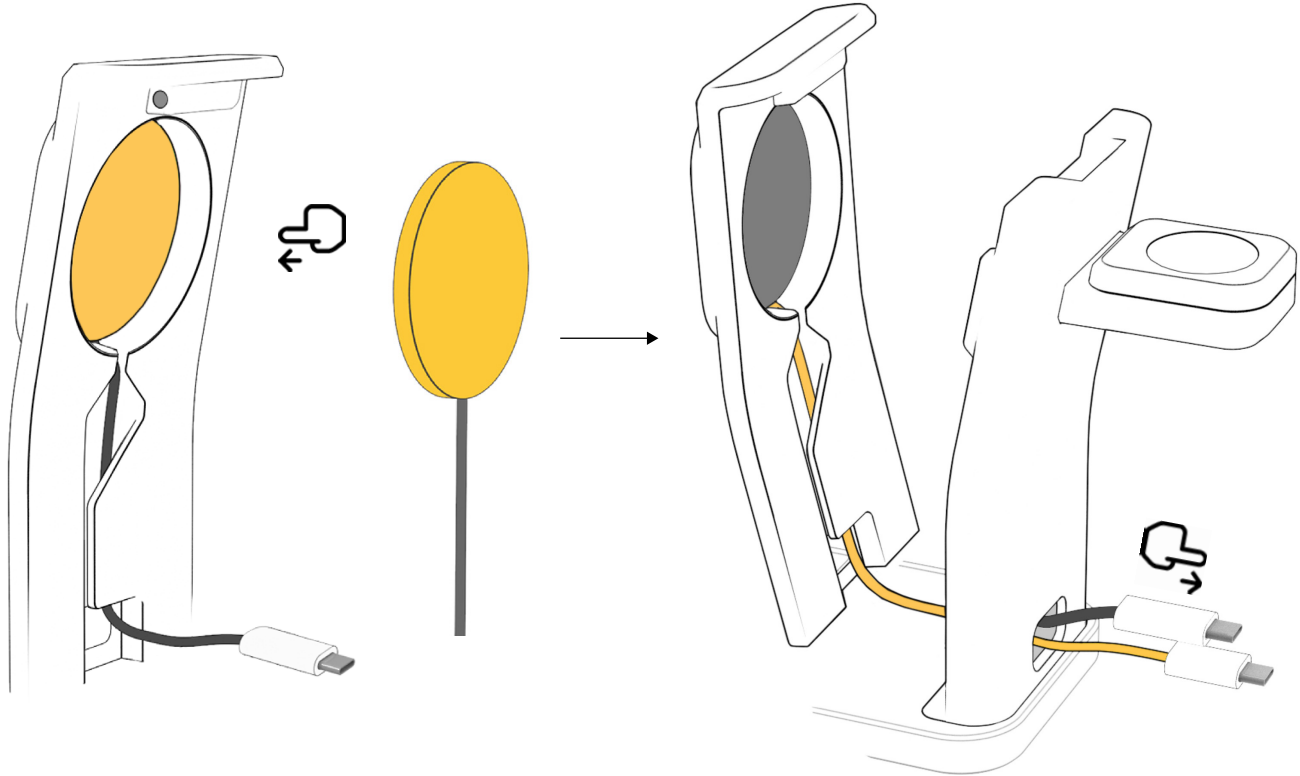

Installing Charger Cables

Follow the recommended steps to install the charging cables

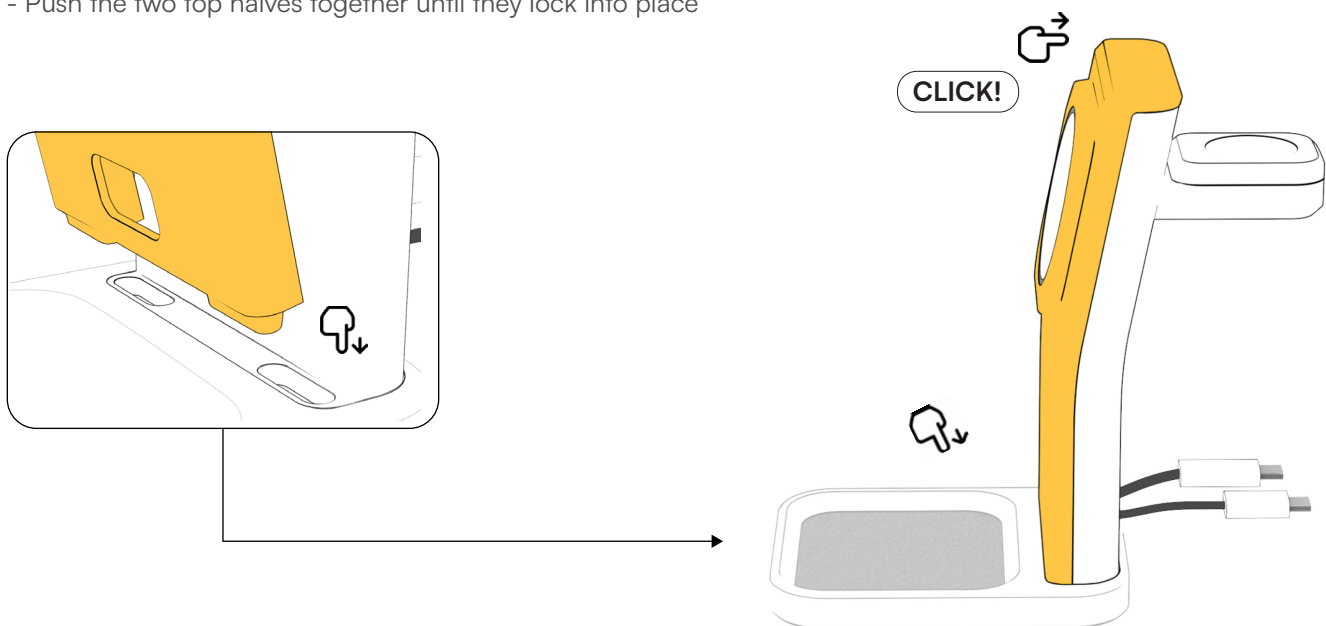

Step 3: Install Magsafe

- Insert the charging puck into the front panel. Push it all the way through.
- Tuck the cable behind the flap
- Feed the cable through the back panel

Step 4: Stand Assembly

- At a slight angle, insert the base of the front panel into the stand
- Push the two top halves together until they lock into place

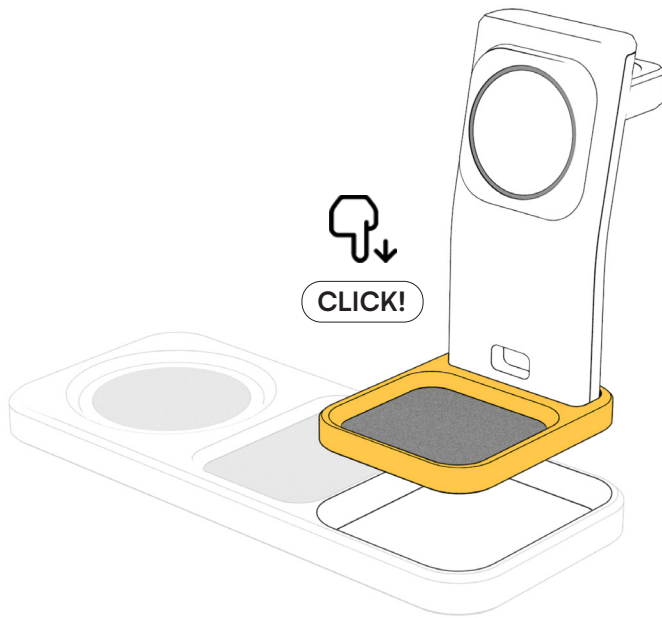

Final Assembly

Follow the recommended steps to complete assembly

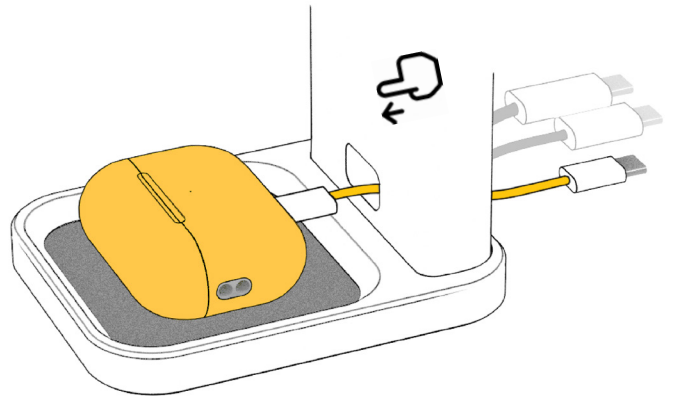

Step 5: Insert Dock

- Align the modular base with the dedicated cavity and press down until the locking pins engage

Step 6: Earbuds Cable

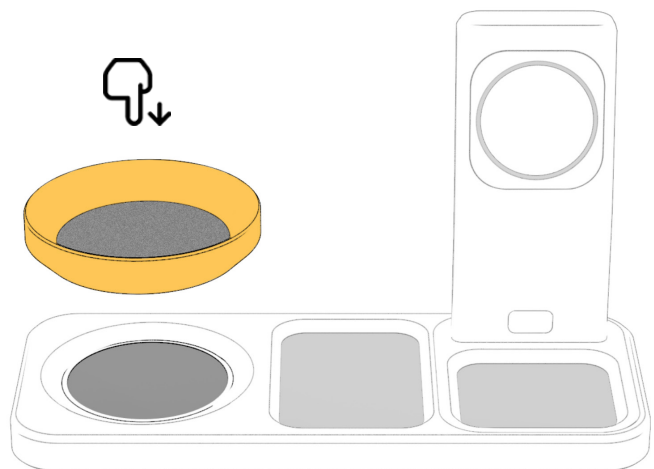

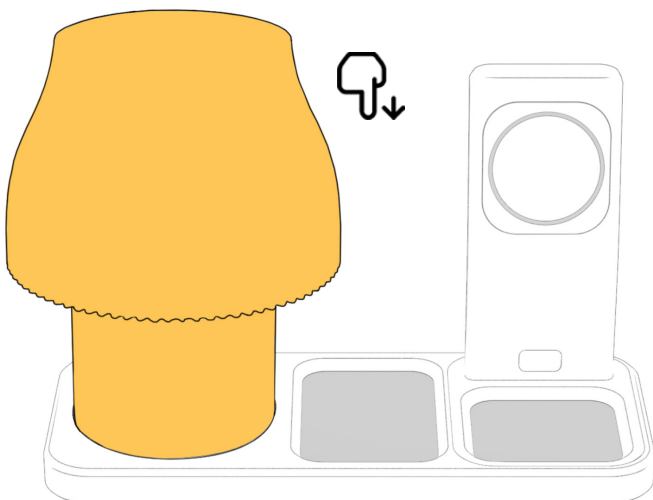

- Feed the charging cable through the back of the stand and into the front charging area

Step 7: Position Your Accessory

- Place your Moodform Lamp or included accessory in the dedicated area

Compatible with select Moodform Studio lamps (sold separately)

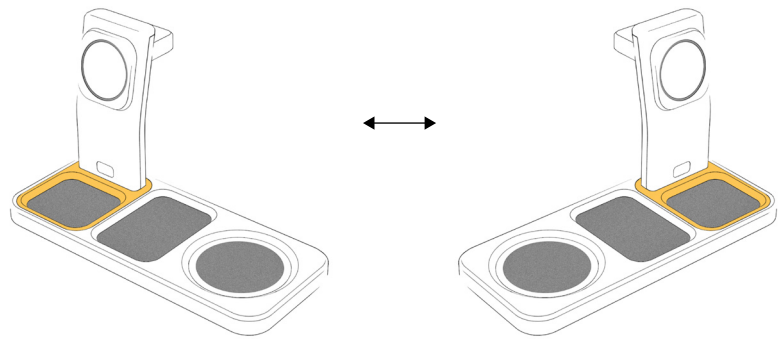

How to Flip the Stand Position

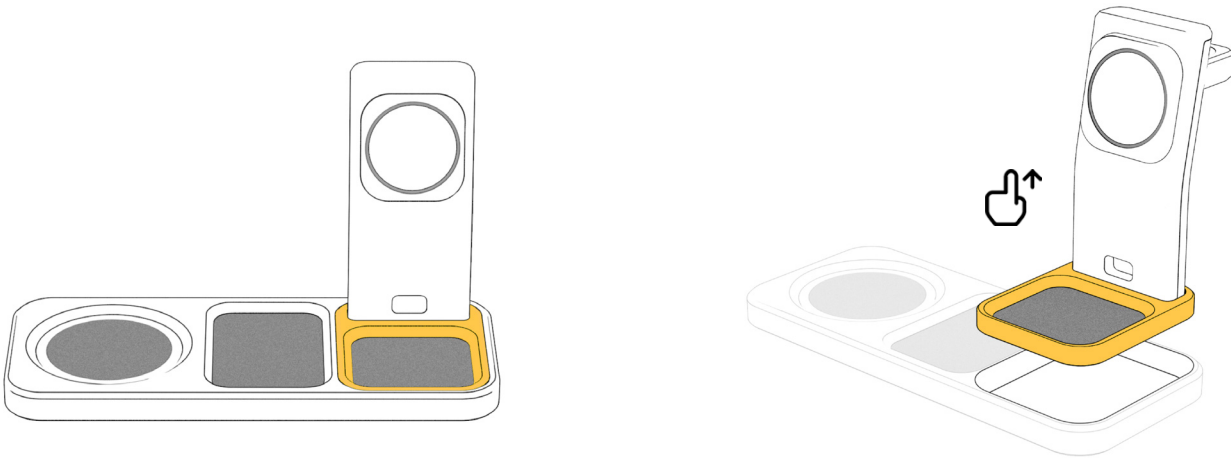

Follow the steps below to switch the stand position

Reversibility:

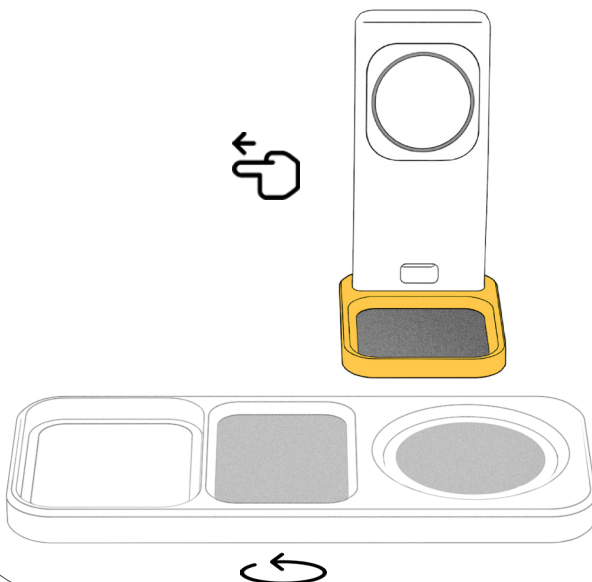

Position the charging stand on the left or right to suit your setup

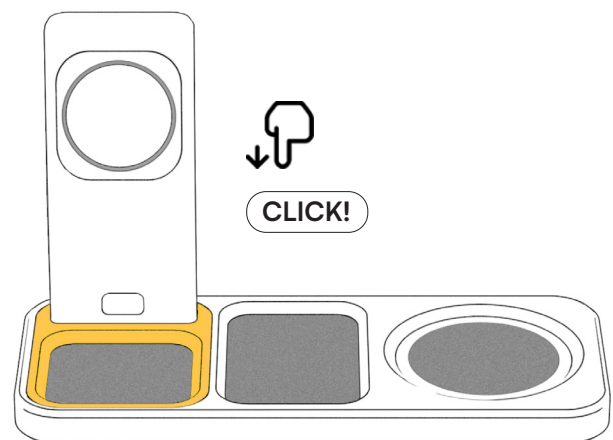

1. Hold the base with one hand, then lift the modular insert out of the cavity

2. Rotate the base 180° to the desired position

3. Align the modular insert with the cavity, then press straight down until it clicks into place

Disclaimer & Safety Notice

This base is designed for use with user-supplied Apple charging accessories. Chargers, cables, and devices are **not included**.

Compatible with select Moodform Studio lamps. Moodform lamps are sold separately.

This product includes 3D-printed parts made from heat-sensitive materials. For indoor use only. Do not expose to excessive heat, direct sunlight, moisture, or open flame.

Use only as intended. Moodform Studio is not responsible for damage caused by misuse, improper installation, or unauthorized modifications.
